 Minneapolis, MN

## Who I am:

I am enthusiastic about creating experiences that are both beautiful and functional. I consider myself a hybrid designer and developer who builds with the user experience in mind. As an extrovert, I love working collaboratively with a team, but can meet deadlines independently.

I'm constantly learning and evolving my skills. I stay current with changing trends by getting involved in local tech meet ups, volunteering my skills, and participating in hack-a-thons.

## What I like:

## What I speak:

English (Fluent)

Spanish (Basic)

## What I'm good at:

### Design

Adobe XD, Sketch, InVision Studio, Zeplin, Photoshop, Illustrator, InDesign

### Development

HTML, CSS, SASS, Bootstrap, JavaScript, jQuery, AngularJS, GIT, PHP

### Marketing

Email Marketing, Social Media Management, Google Apps

### Currently Learning

ReactJS, RESTful APIs

## Where I've worked:

October 2017 - Current

### UI Developer YA | Engage

Designing intuitive user interfaces and developing functional prototypes for client websites and internal applications based on targeted user personas and functional requirements.

June 2017 - July 2017

### Front End Developer (Contract) Wunderman

Building a mobile first, responsive website for the Media Network at Best Buy. Creating with Bootstrap, JavaScript plugins, and CSS animations.

May 2017 - June 2017

### UI Designer (Contract) Ingersoll Rand

Designing and developing responsive apps and websites for the the user experience. Working closely with designers and developers to build interactive applications.

July 2016 - February 2017

### Front End Developer (Contract) Ideapark

Preparing, building, testing, and deploying responsive emails and landing pages. Testing emails with Litmus to ensure cross browser compatibility.

March 2015 - March 2016

### Web Designer GovDelivery

Designing responsive web layouts, updating WordPress templates, plugins, and styles. Developing responsive email templates and landing pages. Designing fliers, banners, and digital assets.

September 2014 - January 2015

### Front End Developer (Contract) The Lacek Group

Building web pages and responsive email templates from photoshop layouts. Collaborating with designers and developers to analyze the performance of emails and websites.

### Clients and Industries

SCJ, Kimberly Clark, Beam, Sargento, CDW, Target, Cottonelle, American Express, Starwood, US Bank, Carnival Cruise, Pillsbury, Betty Crocker, QRV, Trane, Best Buy, Culvers, Lifetime Fitness, Lowe's, and Pepsi.

## Where I've learned:

2018

### Front-End Web Developer Nanodegree

Udacity

2018

### Data Science Challenge Scholarship

Udacity

2011 - 2012

### Web & Interactive Media A.A.S Minneapolis Community & Technical College

## Who I've helped:
